Package

LT4027E-POE	
1	4 Ports PoE Switch
1	Power Adapter
	Hangers
1	Suspension Rail
1	User Manual

Installation

1. Use 4 network cables to connect 4 IP cameras with the 4-port PoE switch.
2. Use another network cable (or fiber) to connect the uplink port of the switch with NVR or computer.
3. Connect the PoE switch adapter to power your system.
4. Make sure the network is available and turn ON the device.

Important Notice:

Do not plug equipment through the power adapter during installation.

Troubleshoot

1. Confirm if the installation steps are completed correctly.
2. Confirm the RJ45 cable used conforms to the EIT/TIA568A or 568B industry standards.
3. The maximum output consumption of the PoE port cannot exceed 30W.
4. Replace the failing device with a new one to test if the PoE Switch is defective.
