

LT-DPXL-136-150-5/6

6-Cavity Duplexer | 136-150 MHz

Lamatel duplexers are compact, low loss, and temperature compensated over the range of -20°C to +50°C. Lamatel ensures excellent stability in mechanical and electrical aspects by using of extruded aluminum cavities and solid-shield copper-jacketed intercabling.

All duplexer units are can be adjusted in the field by qualified engineer or personnel and these duplexers are rated at 50 Watts continuous duty with a maximum VSWR of 1.4:1 over the entire tuning range.
