

INSTALLATION INSTRUCTIONS

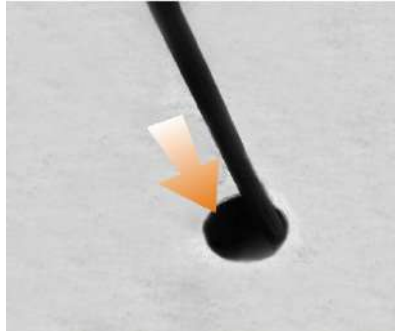

LT-NMO-BNC-18FT - NMO Mobile Antenna

1

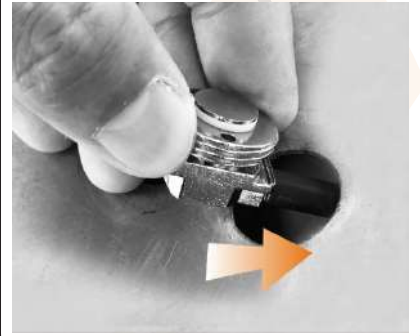

Using a 3/4" hole saw, make a hole in the vehicle roof where the center of the antenna will be installed.

2

Insert the connector and cable into the hole.

3

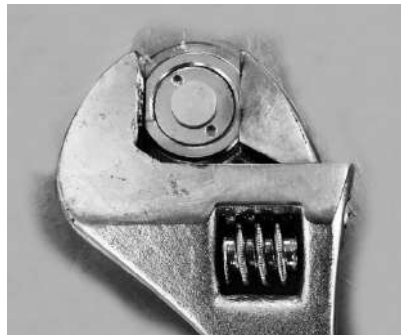

Insert the rear side of the NMO mount inside the 3/4 inch hole.

4

Make the NMO Mount flat in the vehicle surface.

5

After the Locking nut is tighten by finger, use a wrench and tighten NMO Locking nut more turn.

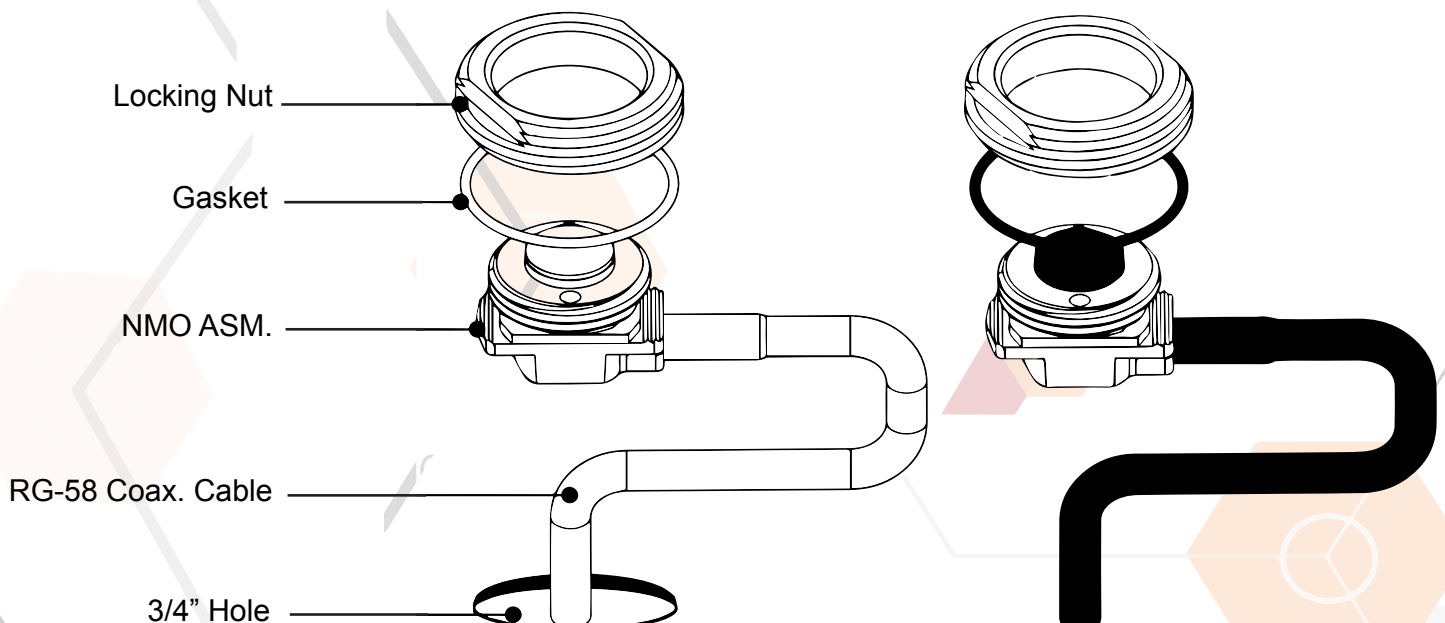

6

Done and make sure the gasket is seated to the vehicle surface

WARNING:

DO NOT apply grease, glue or sealant to the antenna pin contact surface.
